## ABOUT ME

I am a student in pure and applied mathematics looking for a rewarding and challenging summer internship where I can develop my skills as a data scientist and contribute to building machine learning architecture.

## EDUCATION

**Concordia University**, BA Specialization Pure and Applied Mathematics

Dean's List 2022-2023  
4.1/4.3 Program GPA  
Graduating in 2025

**Cégep Saint-Laurent**, Double DEC Humanities and Visual Arts

**Collège de Montréal**, High school

## PAST POSITIONS

### • Team Member, Space Concordia Rocketry Division — 2022-2023

Helped assemble, test, document, and present the De-spin module for the *Starsailor* rocket.

### • Private Tutor, Mathematics— 2023 - Current

Taught math at the high-school level and prepared students for ministry examinations, achieving marked improvements in grades.

### • Chess Teacher, Lower Canada College — 2023 - Current

Provided weekly chess lessons at Lower Canada College for an after school chess program led by Gregory Levitchouk.

## SKILLS

- Proficient in **Python**, **R**, **SQL**, and **LaTeX** programming languages, familiar with the **TensorFlow**, **PyTorch**, **Pandas**, and **NumPy** frameworks, as well as the MS Office suite.
- Fast learner, driven, detail-oriented, excellent problem-solving skills.
- Excellent communicator and team player.
- Native fluency in English and French.
